

COAKLEY BAY ASSOCIATION
2011 Committees

The Coakley Bay Association has transitioned from one Owners' Committee to several smaller committees. Each committee is comprised of 2 to 5 members and meets in person or via email to assist and advise the Owners, Manager and Board of Directors. The committees encourage owners to participate in and coordinate activities that complement their natural interests. The smaller committees promote community involvement by allowing each owner to choose the degree of participation he/she feels comfortable with. Committees assist with policy such as the Rules and Regulations as well as with planning and budgeting for large and small expenditures, such as insurance, signs and for community events, such as the Annual Meeting. Each recognized committee reports to a member of the Board of Directors giving each committee a voice at the Board of Directors meetings.
